"Attention to detail is our trade"

McGrane Incorporated is a family owned and operated business that has been serving the metro and surrounding area since 1995. From residences to large corporate headquarters, McGrane's provides quality landscaping services.

Retaining Walls

Building a solid retaining wall begins with a proper foundation and an effective drainage system. The team at McGrane's are trained specialists – ensuring your wall will not only look good, but maintain its integrity. We install walls of many varieties and materials including:

- Versa-Lok
- Anchor Block
- Keystone
- Natural Stone
- Boulders

Pavers, Patios and Stone Pathways

At McGrane's we are experienced at installing patios and all types of walkways. As with retaining walls, a proper foundation is essential to the beauty and durability of the final product. Pavers have become very popular because of their flexibility in climates like ours that experience such extremes in temperature. Products we install include:

- Willow Creek
- Borgert
- Holland
- Natural Flagstone

Layout and Design

Every landscaping project begins with a master plan. To make your dreams become a reality, our staff carefully surveys each property to lay the proper course for construction. Whether it is the customer's design or one generated by us, we are ready to implement the vision.

Other Services

The following services are also available at McGrane's:

- Irrigation repair
